

Shoresh Preschool Temple Ner Tamid

Positively the best place for your child.

Nurturing Philosophy

If the roots are healthy, the tree will be strong. In Hebrew, Shoresh means roots. Here we concentrate on nurturing children of character who love learning. We are committed to providing the highest quality early childhood education program.

Child-Centered Curriculum

Our goal is to teach to the whole child, which includes their social-emotional, physical, and cognitive development. We provide a warm and nurturing environment where the children feel safe and secure. We believe that children learn best through play and exploration of their environment. To that end, our program includes a music specialist, a movement specialist, and a nature specialist. Our new garden, created by Shoresh families, provides wonderful learning experiences for the children as they help plant and harvest vegetables and herbs. Our program also includes regular use of art, music, math, science, gross and fine motor activities, cooking, and the particular interests of the children.

Jewish Culture

Jewish values and holidays underlie our program. We encourage the development of a positive Jewish identity and the importance of helping others. We welcome children of all backgrounds into our program.

Low Student-Teacher Ratio

Happy children in a secure, warm, attractive setting with a low student-teacher ratio and highly qualified teachers - what more could parents want?

Parent Involvement

Parents are always welcome here. There will be many programs over the course of the year that will bring you into the classroom. We believe that a close partnership between home and school is vital to our program. Our goal is to provide a warm and supportive community for our families.
